Clarity i-vu

The i-vu is a highly portable digital magnifier designed as a Personal Vision Assistant. It gives the user instant magnification anytime, anywhere.

5-20X MAGNIFICATION

If you have difficulty reading small print, then the **i-vu** is here to help. The **i-vu** is a simple to use digital magnifier that will help you read menus, prescription bottles, books and bills easier; view pictures more clearly; and enjoy your favorite hobbies.

With three hours of battery life, the compact, portable **i-vu** is ready to go when you are. Trouble seeing a pricetag or receipt? Take the **i-vu** with you to the store or restaurant and know the price before you get to the register. Keep the **i-vu** next to your medicine cabinet for the added security that you choose the right prescription. With 5 - 20x magnification and a 2" LCD screen the **i-vu** will give you instant magnification anytime and anywhere!

For optimal viewing, the **i-vu**'s 2" LCD screen gives no distortion around the edges compared to the traditional handhelds. The addition of the Inverse Mode and Freeze Frame Option allow for easier viewing and unique control of the image.

After 3 hours of use, just use the AC adapter to charge **i-vu** up again. For ease of storage and portability, the **i-vu** fits in a pocket or purse.

The **i-vu** comes with a full **1 YEAR WARRANTY** from Clarity and gives you peace of mind while you're on the go.

Please note: The actual product may differ slightly in appearance from that shown.

The most important thing to Clarity are our customers. Let's hear what they have to say ...

"My thanks to Clarity and the staff for helping my father see again! He has lost his sight to macular degeneration and could no longer read the books he loves or carve small pieces of wood. Thanks to his new Clarity, he is once again reading his books and magazines! He can even see pictures of the family now! Thanks so much!!"
